PROFIL

I am a passionate Full-Stack Developer with expertise in both frontend and backend development. I excel in creating APIs and developing innovative solutions to real-world problems. I thrive in team environments and have experience with Agile and Scrum methodologies.

Technical Skills

- Programming Languages:** Python, PHP, JavaScript, SQL
- Web Technologies:** HTML5, CSS3, Bootstrap, Tailwind CSS
- Frameworks:** Laravel, React.js, Node.js, Express.js
- Databases:** MySQL, MongoDB (NoSQL)
- Tools & Software:** Git, SonarQube, Postman, Microsoft Office
- Operating Systems:** Windows, Linux
- Methodologies:** Agile Approach, Scrum, Jira
- Project Management & Positive Communication:** Skilled in project management with a focus on positive communication, fostering effective collaboration within teams and ensuring project success.

Experience

May 2024

Final Internship - Health Center Taфраout

- Developed a vaccine management system using ReactJS, Redux, HTML5, CSS3, TailwindCSS, and JavaScript. Worked on the backend with Node.js.
- Managed the project with Git/GitHub/Jira.
- Ensured application security and optimized workflows in collaboration with the medical team and our development team.
